SPECIAL PROGRAMS/SERVICES

**PLAN DESIGN AND BENEFITS – CA
MC HDHP \$3,000 90/50 (HSA Compatible)**

Certain Special programs and Services may be included in your plan: Aetna Navigator™, Fitness, Healthy Outlook, Moms-to-Babies Maternity Management™, National Advantage, National Medical Excellence, Natural Alternatives, Natural Products, Vision One®, and Vitamin Advantage™.

*Payments for out-of-network facility care is determined based upon Aetna's Allowable Fee Schedule. Payment for other out-of-network care is determined based upon the negotiated charge that would apply if such service or supplies were received from a Preferred Provider. These charges are referred to in your plan documents as "recognized" charges.

This plan does not cover all health care expenses and includes exclusions and limitations. Members should refer to their plan documents to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally *not covered*. However, your plan documents may contain exceptions to this list based on state mandates.

All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents; Charges related to any eye surgery mainly to correct refractive errors; Cosmetic surgery, including breast reduction; Custodial care; Dental care and X-rays; Donor egg retrieval; Experimental and investigational procedures; Hearing aids; Immunizations for travel or work; Infertility services, including, but not limited to, artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents; Treatment of those for or related to treatment of obesity or for diet or weight control; Nonmedically necessary services or supplies; Orthotics except as specified in the plan; Over-the-counter medications and supplies; Reversal of sterilization; Services for the treatment of sexual dysfunction or inadequacies, including therapy, supplies, or counseling; and Special duty nursing.

This plan imposes a pre-existing conditions exclusion, which may be waived in some circumstances (that is, creditable coverage) and may not be applicable to you. A pre-existing condition exclusion means that if you have a medical condition before coming to our plan, you might have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis or treatment was recommended or received or for which the individual took prescribed drugs within six months.

Generally, this period ends the day before your coverage becomes effective. However, if you were in a waiting period for coverage, the six month period ends on the day before the waiting period begins. The exclusion period, if applicable, may last up to six months from your first day of coverage, or, if you were in a waiting period, from the first day of your waiting period.

If you had less than six months of group or three months of individual (including Medicare, Medicaid and Medi-Cal) of creditable coverage immediately before the date you enrolled, your plan's pre-existing conditions exclusion period will be reduced by the amount (that is, number of days) of that prior coverage.

If you had no prior creditable coverage within the six months for group or three months for individual prior to your enrollment date (either because you had no prior coverage or because there was more than a six months of group or three months of individual gap from the date your prior coverage terminated to your enrollment date), we will apply your plan's pre-existing conditions exclusion.

In order to reduce or possibly eliminate your exclusion period based on your creditable coverage, you should provide us a copy of any Certificates of Creditable you have. Please contact your Aetna Member Services representative at 1-888-802-3862 for PPO and 1-888-702-3862 for HMO if you need assistance in obtaining a Certificate of Creditable Coverage from your prior carrier or if you have any questions on the information noted above.

The pre-existing condition exclusion does not apply to pregnancy nor to a child who is enrolled in the plan within 31 days after birth, adoption, or placement for adoption. Note: For late enrollees, coverage will be delayed until the plan's next open enrollment; the pre-existing exclusion will be applied from the individual's effective date of coverage.

**PLAN DESIGN AND BENEFITS – CA
MC HDHP \$3,000 90/50 (HSA Compatible)**

Some benefits are subject to limitations or visit maximums. Certain services require precertification, or prior approval of coverage. Failure to precertify for these services may lead to substantially reduced benefits or denial of coverage. Some of the benefits requiring precertification may include, but are not limited to, inpatient hospital, inpatient mental health, inpatient skilled nursing, outpatient surgery, substance abuse (detoxification, inpatient and outpatient rehabilitation). When the Member's preferred provider is coordinating care, the preferred provider will obtain the precertification. When the member utilizes a nonpreferred provider, Member must obtain the precertification. Precertification requirements may vary.

Depending on the plan selected, new prescription drugs not yet reviewed by our medication review committee are either available at the highest copay under plans with an open formulary, or excluded from coverage unless a medical exception is obtained under plans that use a closed formulary. They may also be subject to precertification or step-therapy. Non-prescription drugs and drugs in the Limitations and Exclusions section of the plan documents (received after enrollment) are not covered, and medical exceptions are not available for them. Aetna Rx Home Delivery, LLC, is a licensed pharmacy providing mail-order pharmacy services. Aetna's negotiated reimbursement rates with Aetna Rx Home Delivery may be higher than Aetna Rx Home Delivery's cost of purchasing drugs and providing mail-order pharmacy services. In prescription plans with copayment or coinsurance tiers, use of formulary drugs generally will result in lower costs to members. However, where the prescription plan utilizes copayments or coinsurance calculated on a percentage basis, there could be some circumstances in which a formulary drug would cost the member more than a non-formulary drug because (i) the negotiated pharmacy payment rate for the formulary drug may be more than the negotiated pharmacy payment rate for the non-formulary drug, and (ii) rebates received by Aetna from drug manufacturers are not reflected in the cost of a prescription drug obtained by a member.
